

Sebastian Gómez

Venezuela, Caracas • sebasdgg3001@gmail.com • (424) 194-4220 • [linkedin.com/in/sebastiangomez30](https://www.linkedin.com/in/sebastiangomez30)

With a year of working experience, specializing in ensuring software quality in agile environments, particularly on sales projects where optimizing user experiences drives conversion rates. Working with over 20 devs, I've collaborated and communicated actively to improve the workflow and bug detection. Check my portfolio: [My portfolio!](#)

PROFESSIONAL EXPERIENCE

UEMURA - TRAVEL & LEISURE SOCIAL NETWORK

QA Engineer

Spain, Remote, Part Time

January 2024-August

Enhanced project quality at Uemura by implementing robust test strategies, achieving a reduction in post-release defects and increase in test coverage, leading to a promotion.

- **Created functional and regression automation scripts** from test case requirements, reducing manual effort and saving several hours per week
- **Utilized positive and negative test scenarios** for thorough system coverage, leading to an increase in early defect detection and a reduction in critical bugs in production.
- **Developed and maintained scalable test automation frameworks** and manual testing processes, reducing testing time.
- Triaged, diagnosed, reported, tracked, and resolved software quality issues
- **Communicated actively across multiple teams**, ensuring cohesion and collaboration, which improved team productivity and reduced project delivery time.

NETFOREMOST

QA Engineer

Panama, Remote, Full time

August 2024-Present

- **Implemented manual and automated testing** strategies, improving testing efficiency across various projects.
- Developed and maintained automated scripts using Selenium for functional and regression tests, significantly reducing manual testing effort.
- **Conducted system, regression, and exploratory testing** to ensure business functionality and interoperability.
- **Performed API testing using Postman (PATCH, GET, POST, DELETE)**, increasing early defect detection and reducing production issues.
- **Validated test environments, generated reports, and classified software quality issues**, leading to a more streamlined testing process.
- Worked on **several projects**, ensuring efficient testing processes and adaptability to varying project needs.
- Regularly communicated with **American Product Owners (POs)** and clients during demos and daily standups in English, fostering clear understanding and alignment on project goals

EDUCATION

INSTITUTO UNIVERSITARIO DE NUEVAS PROFESIONES

Bachelor of Engineering, Computer Science

2023-2025

Venezuela, Caracas

- Completed two-year study abroad with Instituto Universitario de Nuevas Profesiones University

CERTIFICATIONS

- **CS50: Introduction to Computer Science** | Harvard University
- **English Language Proficiency**, Universidad Central de Venezuela (CEBA Program), August 2024
Completed VIII levels of the English program as a foreign language. [Check it here](#)
- Software **Testing Masterclass** (Udemy)

SKILLS

- Technical Skills: Cypress, Clickup and Jira, JMeter, Postman, Selenium IDE and WebDriver
- Soft Skills: Create test plans based on project requirements and priorities, Collaborate actively within teams, Userbased thinking
- Languages: Fluent in Spanish (native), Conversational Proficiency in English
